

Dear Celso Ricardo Caldeira Rêgo.

It is a pleasure to inform you that your application for the School and Workshop
7th Time-Dependent Density-Functional Theory: Prospects and Applications
to be held at the CENTRO DE CIENCIAS DE BENASQUE PEDRO PASCUAL,
has been accepted.

We expect to have you at the center from Sep 11 to Sep 23.

The service to book accommodation and a seat on the organized bus provided by the center is available in the following web page:
<http://benasque.org/2016tdfft/cgi-bin/houstart.pl>

We have secured sufficient funding to be able to support all students by covering the conference fee. Therefore, ignore the information at the webpage regarding the fee. In addition, some of you will receive a separate email with information about extra support.

During the School, we will hold a poster session, and therefore we encourage you all to bring a poster. The authors of the best poster(s) (selected by the School teachers) will be invited to present their work at the Workshop.

Regarding the practical sessions, we ask you to bring your own laptop. Things will be easier if it has a linux distribution, or an OSX system. If, due to special circumstances, you cannot bring a laptop, please let us know so that we can find a solution.

Looking forward to seeing you.

The organizers.

Hi Celso,

I talked with the director and we can invite you for a visit. We can provide you with a room in the guesthouse and also a meal allowance if that is not covered. I think a visit of about 4 weeks would be a suitable period of time to get a chunk of work done on the project. It would be ideal if you could come immediately after Benasque. Would that work for you?

Let me know!

First of all, thanks very much for your support !!

Yes, I think the meal allowance will be nice for me. I will travel to Halle immediately after Benasque. Once I have my data about the trip, I let you know. When you say 4 weeks do you mean more less around 30 days ? (Just to help me during the purchase of my tickets).

In relation to the project I think we should make a schedule to follow. I think that you remember that we did something in this sense in the begin of our partnership, but in that situation, we were planing to have more time and now we have just 30 days.
What do you think?

See you,
